

Annual Assembly of Hospice and Palliative Care

Purpose and Outcome

Purpose:

The AAHPM and HPNA collectively identify and share the responsibility to advance the specialty of hospice and palliative care. Our purpose for this assembly is to foster a premier continual learning experience where expert, proficient and early career hospice and palliative care providers and non-specialty clinicians wishing to integrate primary hospice and palliative care into their practice can collaborate to advance the care of patients and families with serious illness.

Desired Outcome

Through interdisciplinary team collaboration and integrated enactment, our desired annual assembly outcome is to enhance the learners' knowledge/skills/strategy or performance to increase competency, influence behaviors, and/or improve patient outcomes in hospice and palliative care.
